Our Program

The EDGE Program is expanding by welcoming a second location for our West end participants. Please help us by sharing the news with your family and friends! If you know any eligible youth, encourage them to invest in their future by registering for The EDGE Program.

Together with education, we believe that life skills, etiquette, and leadership are vital skills for success; our focus is on teaching participants the poise and tenacity required to make powerful and lasting first impressions. Whether a young person is interacting with teachers, potential employers, customers, clients, business associates, new friends, or other relationships, the skills we transfer will make our participants stand out.

We also know that in today's world a strong drive to succeed is both one of the most valuable gifts a young person can have, and increasingly one of the hardest things to come by. In our workshops led by US for US, we do our utmost to help our youth find their inner spark and fan it into a bright flame.
